In-House & Outpatient Rehabilitation Services...

Our staff of trained and experienced, licensed therapists provide Speech (ST), Occupational (OT), Respiratory (RT), and Physical Therapy (PT). These important therapies can help to speed up recovery time from an injury and help residents regain their independence and improve quality of life. We have implemented a successful Rehab-to-Home program, designed to help residents regain their independence as quickly as possible. Our private Medicare suites are newly remodeled and we have one of the largest therapy departments in the area, recently upgraded and remodeled. Clinical solutions enable Therapists to accelerate recover of function, enhance healing, increase strength and improve neuromuscular control in patients with orthopedic and neurological diagnoses. You won't find a better therapy department than at Bridgewater Centre for Health and Rehabilitation.

Restorative Therapy including assistance with Activities of Daily Living – feeding, ROM and passive ambulation, six days a week!

Bridgewater Centre for Health and Rehabilitation

Our Facility...

Bridgewater Centre for Health and Rehabilitation is a spacious facility with lovely decor and private rooms available, conveniently located in Hartford City, with close proximity to Hospitals.

We offer the following rooms to meet the individual needs and preferences of you and your loved ones:

~ Skilled & Independent Care: Private and Semi-Private Rooms

We work hard to create an atmosphere where healing and wholeness take place and where the happiness and comfort of our residents is our primary concern. We believe that specialized care is not only for the body and mind, but for the spirit of our residents.

Important Decisions...

At Bridgewater Centre for Health and Rehabilitation, we understand the decision to move to a nursing facility can be overwhelming – with concerns ranging from affordability to security to the ability to maintain and enjoy an independent lifestyle. Making a move at any point in your life can be stressful. Our goal is to provide you with as much information and assurance as possible, so you can research your options and you will feel confident with your final decision. We will introduce you to our beautiful facility and help you access what personalized service you will require to ensure that you may thrive in your new home. We welcome you to involve your family and friends in the process of creating and implementing a cost-effective care plan that meets all of your expectations to help restore your independence.

Our Primary Goal...

Our primary goal is to provide you with surroundings and services that will enhance your life. You will have the best of many worlds at your new home. People who care will be close by when you need someone. There will be other residents in close proximity for friendship and companionship, meals prepared for you daily, and specialized services available to meet your needs now and as they change. We want to help you make a successful transition to your new lifestyle so that it will truly become a new home you will enjoy.

*Please come for a visit &
let us take you on a tour!*

So Much to Enjoy...
